NEWS RELEASE

EXHIBIT 99.1

National Western Life Group, Inc. Announces 2017 Second Quarter Earnings

Austin, Texas, August 4, 2017 - Ross R. Moody, Chairman of the Board, President, and Chief Executive Officer of National Western Life Group, Inc. (Nasdaq: NWLI), announced today second quarter 2017 consolidated net earnings of \$25.5 million, or \$7.21 per diluted Class A common share, compared with consolidated net earnings of \$26.3 million, or \$7.43 per diluted Class A common share, for 2016. For the six months ended June 30, 2017, the Company reported consolidated net earnings of \$49.0 million, or \$13.86 per diluted Class A common share, compared with \$43.5 million, or \$12.31 per diluted Class A common share, a year ago. The Company's book value per share increased to \$489.63 as of June 30, 2017 from \$481.06 as of March 31, 2017.

The Company reported earnings from operations, excluding net realized gains and losses on investments, of \$21.4 million for the quarter ended June 30, 2017, or \$6.06 per diluted Class A common share, compared to \$24.5 million, or \$6.92 per diluted Class A common share in the same period for 2016. Mr. Moody commented on the earnings results saying, "Earnings this quarter were mitigated by provisions we were required to record for the value of equity-based awards outstanding under our long-term compensation plan. At the end of the second quarter last year the market price of our shares was approximately \$195 per share. At the end of the second quarter this year the market price had increased 64% to approximately \$320 per share. The effect of having to value unexercised equity awards at the higher share price caused our expense to be nearly \$5 million higher in this year's second quarter compared to last year."

The Company reported earnings from operations, excluding net realized gains and losses on investments, of \$43.3 million for the six months ended June 30, 2017, or \$12.24 per diluted Class A common share, compared to \$40.2 million, or \$11.36 per diluted Class A common share in first six months of 2016. Mr. Moody indicated, "With nearly 90% of our life insurance sales year-to-date coming from equity-index products and over 95% of our annuity sales generated by our equity-index product offerings, we have benefited from the ongoing bull market in stocks." Mr. Moody added, "These products have the positive effect of both lessening the exposure to interest rate compression that fixed-rate products in the industry have been experiencing, but also enhancing Company profitability through the collection of higher asset management fees produced by market returns."

National Western Life Group, Inc. is the parent organization of National Western Life Insurance Company (NWLIC). Founded in 1956, NWLIC is a stock life insurance company offering a broad portfolio of individual universal life, whole life and term insurance plans, as well as annuity products, which meet the financial needs of its customers in 49 states as well as residents of various international countries.
